The Massachusetts Community Mediation Centers Program

The Massachusetts Office of Public Collaboration, UMASS Boston

The Community Mediation Coalition of Massachusetts

Summary/Abstract

As part of the **public service mission** of UMASS Boston, the MA Office of Public Collaboration (MOPC) partnered with the Community Mediation Coalition of Massachusetts in compiling a research study and design for a **Community Mediation Centers Grant Program** to increase sustainability, scope and quality of Massachusetts community dispute resolution as a mechanism for increasing access to justice for all Massachusetts communities.

Goals and Objectives

Promote Community Mediation as a **cost-effective public service program within higher education** through a partnership with the **Community Mediation Coalition of Massachusetts** by establishing a state-wide grant-making program for mediation center sustainability and independence; legislation; community mediator excellence; and *partnerships between UMASS students and community mediation centers*, the Massachusetts Trial Court and others.

Results/Impacts

Anticipated Results Include:

1. **\$1.25 million annually** for state-funded operating grants to 20 community mediation centers across the state.
2. **6126 annual mediations** for primarily low income residents of Massachusetts.
3. **4430 resolved conflicts annually** for state and local government, courts, schools, police departments, businesses and communities.
4. **The cost-savings and resources leveraged** would amount to \$6 million annually.
5. **UMass Boston Students** will be involved in providing community dispute resolution services at community mediation centers state-wide.
6. **UMass Boston will become a national leader** in community dispute resolution programming and research.

Approaches and Methods

Alignment of community mediation centers, MOPC and UMASS Boston as effective deployment of public resources.

Building on existing state-wide conflict resolution infrastructure eliminates duplication of efforts.

A university-based framework institutionalizes partnerships and through centralization, **leverages the benefits of scale.**

Conclusion/Next Steps

Securing Funding for the grant program.

Enacting Legislation demonstrating commitment to the public service mission of UMASS Boston.

Building Infrastructure for program administration through MOPC.

Administration of grant-program.
