To avoid mistakes in registration for next fall, all juniors with questions about graduation requirements should see Mr. Dittmar in the Advising Office (fourth floor, Sawyer Bldg). In particular, any junior who has a question about the appropriateness of past programs should have the University regulations clarified. Of special concern is the failure of some students to take two semesters of each of two different subjects in the Math and Natural Sciences core requirement. Any student who has fulfilled part of the core requirement with a single science or math course should see Mr. Dittmar immediately. It is essential that students with questions secure advice before pre-registration for their senior year.
