Referendum on College I  
Constitution

College I Assembly at its April 24 meeting passed a resolution that it "submit the present proposed constitution to referendum as an interim government to last for one year. That government will be charged to establish a committee to prepare proposals for a permanent College constitution."

(continued)

Referendum on College I  
Constitution

The referendum on this issue, including the proviso about the committee to prepare proposals for a permanent constitution will be conducted in the Main Lobby of the Main Building on Tuesday, Wednesday, Thursday, and Friday, May 2, 3, 4, 5, between 10 a.m. and 3 p.m. Copies of the constitution will be available to students at the tables where pre-registration packets are picked up and also in the office of the Dean of College I (2d floor, Salada Bldg).

Nominations and Elections  
for the University Assembly

The newly approved University constitution provides that each college shall have 12 faculty and 8 students representatives in the University Assembly.

The elections will be held before the end of the semester. Presumably during the final examination period (exact details of conducting the election are currently being worked out).

Nominations are due by the final day of class, May 10 (Wed)

Nominations will be accepted by both colleges from the following:

- faculty: from each academic department  
from each individual faculty member
- students: from each departmental student advisory committee  
from individual students, who fill out the form published in the Mass Media and also available in each of the Dean's Offices (Dean of College I, room 206 Salada Building; Dean of College II at the Statler Hilton Hotel)
- any person or group may nominate as many persons as desired, provided the nominees are willing to serve if elected, and nominations must be accompanied by such an indication
- students must be in good academic standing to stand for election

All nominations are to be submitted to the respective Dean's Office.

National Endowment for the Arts

A recent report by the NEA summarizes its activities for the fiscal year 1972. In general these activities do not furnish support for Universities. Instead, the Endowment seems to offer support to individuals or to groups of artists.

The Endowment offers support to creative artists in the following major areas:

- |                                     |             |
|-------------------------------------|-------------|
| Architecture and Environmental Arts | Dance       |
| Museum Programs                     | Education   |
| Public Media                        | Theater     |
| Expansion Arts                      | Literature  |
| Special Projects                    | Visual Arts |

The following comments are addressed to those items which appear to support programs within the University context.

A new program in the Endowment is that of Architecture & Environmental Arts. Last fiscal year the Endowment did support graduate thesis fellowships "to foster the professional growth of individual students in the fields of Architecture, Landscape Architecture, Industrial Design, and Planning." The other aspects of this program appear to be associated with public awareness of a pleasing aesthetic environment. The Endowment also in this area encourages the introduction of art facilities in new town plannings.

The programs in Dance, in Education, and in Expansion Arts, to emphasize the community area rather than the academic area. The Educational Programs support the introduction of artists into the elementary and secondary school environment. The Expansion Arts Program concentrates on encouragement of community based art groups in inner-city, suburban, and rural areas. In order for a University to receive funding in these areas, it would be necessary to develop community action based programs. This is also true for work in Literature, Museum Programs, and Music. The literature and music programs appear to emphasize individual artists and, in the latter case, touring companies. The Museum Program is also community based. However, this program may be one of the more academic programs from the standpoint that there are interests in research directed towards the conservation of art materials and for graduate level university programs for specific short term training aspects in conjunction with museums.

Senate Passes Massive  
New Housing Bill

Twenty per cent of all future subsidized rental units would go to lower income families.

The direct loan program for housing for the elderly would be revived.

Existing grant programs such as urban renewal and public works planning advances would be combined into a block grant community development program with local authorities having greater flexibility in their use.

Funds for homeownership counseling, tenant services and seed money loans would be increased sharply.

These are among the features of the omnibus housing bill approved by the Senate in early March, only days after it was recommended by the Senate Committee on Banking, Housing, and Urban Affairs.

Mark-Up Scheduled on OEO

The Senate Labor and Public Welfare Committee (Williams, D-N.J.) has tentatively scheduled mark-up sessions on the OEO bill (S. 3010) for Thursday, April 27. As indicated last week (see CR 92-2-13), in a move to gain Administration support, the Senate subcommittee dropped the Child Care provisions entirely, and although funds are earmarked, it is done on a priority basis to allow flexibility in funding OEO programs.
