More on the Move

Happy New Year! And as you may know this is the 10th anniversary year of the passage of legislation that founded UMass-Boston. Since it's the year for opening the new campus in Dorchester, it is especially significant that much of the move takes place this week and next.

By the end of this week the office staff of the Dean of College II will have been moved to its new quarters, and by the end of the week of January 7th the academic department offices for College II will have been settled at their new facility.

The moving vans have been rolling with books from the library shelves and are being located on the sixth and eighth levels of the new library building.

The bookstore personnel have been taking inventory of their wares and are moving this week to the G-2 level of the Administration Building.

Some words of caution: the garage at the Administration Building is the only garage area open at this time for University personnel. It holds only 50 vehicles, and spaces are allotted on a first come-first served basis. Personnel are asked to park only on hot-topped areas for the time being.

Beginning January 21st, fees of \$1.50 per car daily will be collected in the parking garages. That's January 21st.

The University is waiting for final inspection stickers on the elevators in the college buildings, science center and library. Therefore, we are not allowed to use the elevators for personnel use until the inspections are finalized.

Promotion

Robert Gorman has been promoted to the position of Superintendent of Buildings & Grounds.

In his new position, he will be responsible for all custodial work and cleanliness of the buildings.

Promotion (Continued)

He will also be responsible for the upkeep of the grounds, road construction, repair and the moving groups.

Sherman Arnold will take over the duties of the Custodial Section as Acting Head.

Elected to Personnel Board

Dr. Gardner D. Yenawine, director of the Office of Vocational Counseling and Placement, has been elected to a two-year term as college member-at-large to the Eastern College Personnel Officers (ECPO) Executive Board. The membership of ECPO consists of college placement directors and directors of personnel of major government and industry employers in the northeastern United States. As college member-at-large, Dr. Yenawine's primary responsibility involves representing on the Board the interests and views of college and university placement officers. He invites the personal views of concerned students, staff, and faculty on the UMass-Boston campus as they relate to career planning and placement.

Photocopying Facilities at the New Campus

Copy reproduction services will be centralized at the Columbia Point Campus in order to improve the facilities available and at the same time, prevent the further expansion of associated costs. A trust fund has been established to operate Copy Centers in each of the following buildings:

College I - Room 02-26
 College II - Room 03-414
 Science Bldg. Room 03-182
 Admin. Bldg. Room G2-17

These Centers will be manned by full-time operators and will be equipped with high-speed, automated copying equipment featuring automatic collation. Service will be offered on a demand basis for most work. Operators will also be trained to assist users in determining the best method for copying.

Charges will be made against supplies allocations (Subsidiary Acct. 13) in the budgets of user departments. It will also be possible for individuals to use these services on a cash basis. The rate structure will be set at the lowest possible fee that will meet the expenses of operating these centers. The initial rate structure is as follows:

Copies 1 through 4 of one original - \$.05 each
 Copies 5 on of the same original - \$.02 each

Central Duplicating, for long runs, is less expensive. Facilities are at the G-2 level, Administration Building.
