How I wish to go on

But this shall cease

No matter how much you wish to know more

Personal matters must stay sealed until

Until the time is right

Youth violence causes are from society itself

Grades are set by ages not intelligence or any other interval

Now you have a mixing pot

And diversity is good

But in this situation you are supporting

Violence unintentionally

Two other matters cause this

Those who are here to protect do the opposite

They only want to arrest not serve justice

Innocent until proven guilty holds as much weight as a feather

Prejudices are human nature

No matter how fair you want to be

Protection is at a cost

No matter who you wish to see

The dangers of our world can really hurt all

Some people run to gangs for protection

And they learn things you wish not here

I wish not to tell

I have no proof of anything

No video tapes or anything of that nature

I can only tell and hope you listen

BQ13020

Listen same as silence

Nothing in silence so no one can listen

Somehow it over takes sound

I feel as if I could only do nothing

I am one and near no one wishes to listen

I am an insane child who may have insomnia

But that does not matter

No one wants a preacher denies what they know

They would figuratively eat me alive

Then leave me in ditch

I wonder will I survive

And I as my mind

And my mind is me

So this endless loop will not end until I actually speak

They say violence could be ended

And I wish this were true

But again this is human nature

There are only a couple things you can do

Like speak out and expect the consequences of this

And comfort those who are affected

Try to stay mentally stable

Stay serious in your efforts

Unless you already have plan

Violence actually seems like a balance keeper

Hear me out

If everything was peaceful it would seem like a utopia

Everyone wants a utopia
But everyone has a different Utopia
So clashing will always occur
So quickly a dystopia will spawn out of this Utopia
Or was their a Utopia there at all
because even though the thought was there was a good thought there
Not all outcomes were looked upon
So if you find a way great
Temporarily that seems like a godsend
Just think of it like a weed
It always seems to come back
Eventually
