How Does Violence Affect Us?

Violence affects all of us, and I believe there are other ways around violence. People should not use violence because it can really hurt other people and you can get in lots of trouble. I think that instead of being mean and causing violence you can do something else. One thing you can do is to go to a counselor and get help or try your hardest to be nice to people. If you are someone who gets bullied I think you should approach the bully and tell them how you feel and that you would hope they stop.

If you are the one causing violence i would really hope you stop,because they words or actions that you do are affecting people's life in a negative way. Maybe, you should try to be nice to that person or those people. Violence can really hurt people physically and mentally that's why we need to try to stop violence altogether. There are many consequences for violence and people are still causing it. We need to try and find a way to stop violence so everyone is safe.
