Violence affected my life was when I was little, I saw a lot of violence around my home, family, etc. First, as I was little my little brother and I were in a fight between two of my uncles. For example, at a wedding my dad brought my brother and me to a restaurant. During the wedding as we were eating all of a sudden we heard two men bashing beer bottles on top of each other. During the fight, two police officers came to stop the fight as they stopped the fight, one of the men's face was covered with blood. The question is why were they arguing about? Next, is between my dad and his brother. For example, during the Super Bowl when my brother, Tommy and my cousin Ryan looked down the stairs and they saw my dad and his brother fighting over what? Which team is going to win the Super Bowl? When one of my dad's friends broke up the fight everyone stopped talking and the room was quiet for 5 minutes. The both of them were so mad at each other the both of their faces were bright red trying to choke each other. Therefore, these were the ways that violence affected my life.

Another way that violence affected my life was my neighborhood. First, I heard gun shots near my home. For example, as I was about to sleep I heard more than one gun shot near my house, then as I looked outside my window I saw 2 men running away. Next, is many ambulance came near my house because people got injured by people or relatives near them. For examples, as I was little with my mom at night and then I saw lights outside of my house and my mom looked outside and saw 3 ambulance and 2 fire trucks. Then, I keep asking myself, "why are people like this?" Furthermore, this was another reason why violence affected my life.

The causes of youth violence is when little kids see on TV is shooting, killing, etc. First, is kids copying people on TV trying to act cool and then they get carried away and shoot someone by accident. For example, kids want to impress people, like their friends, brother, sister, etc. They do it because they saw it on TV and think that if they do that will it make them cool or will make them popular? Next, is something bad will happen to your son/daughter. For example, ~~when~~ ~~fortunately~~, your son/daughter will be caught by the police and will be brought to jail and you know you don't want that to happen to your son/daughter. Also these are the causes of youth violence.

Another cause of youth violence is when kids get fake toy guns. First, when kids walk home <sup>and</sup> a stranger walks up to them and they ask ~~the~~ Him/her is do you want a gun? For example, when they buy the gun and when they go home and try to hide the gun but the thing you don't know is when your mom and dad find that your mom and dad see you have a gun. Guess who's ~~in~~ in trouble? Your right, you are. Next, is that your brother or sister will be in the hospital. For example, one day your brother or sister will wind up in the hospital because you forgot to do something for your gang member. Yet, this is another cause of youth violence.

The things I can do about youth violence is to stop kids from choosing the ~~wrong things~~ right things to the wrong things. For example, First, I'll stop kids from choosing the wrong decision. For example, I don't want kids to go to jail for doing bad things. Next, I don't want kids be in the hospital. For example, I don't want kids be shot, killed, jumped, etc. Then, I want

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Additionally, it is noted that the records should be kept in a secure and accessible format. Regular backups are recommended to prevent data loss in the event of a system failure or disaster.

The second part of the document outlines the procedures for handling discrepancies. It states that any differences between the recorded amounts and the actual transactions should be investigated immediately. This involves reviewing the relevant documents and identifying the source of the error.

Once the cause of the discrepancy is identified, appropriate corrective actions should be taken. This may include adjusting the records and notifying the relevant parties. The goal is to ensure that the records remain accurate and reliable at all times.

The third part of the document provides a detailed overview of the reporting requirements. It specifies the frequency and format of the reports that must be generated. These reports should provide a clear and concise summary of the financial activities over a defined period.

It is also noted that the reports should be reviewed and approved by the appropriate authority. This ensures that the information presented is accurate and complies with all applicable regulations.

Finally, the document concludes by reiterating the importance of ongoing monitoring and maintenance of the records. Regular audits and reviews are essential to ensure the integrity and accuracy of the data throughout the entire process.

In summary, the document serves as a comprehensive guide for managing financial records. It provides clear instructions on how to collect, maintain, and report on this information. By following these guidelines, organizations can ensure that their records are accurate, secure, and compliant with all relevant requirements.

The document is intended for all staff members involved in the financial reporting process. It is a key resource for ensuring the highest standards of accuracy and transparency in all financial transactions.

people to teach the kids to do the right things instead of the wrong things. Furthermore, these are the things I'd do about youth violence. But violence means hate, and it also means to hurt other.
