Do The Write Thing Essay

RLA

Violence affected my life and other peoples lives in many ways. When I think of violence I think of:

- Swears
- Weaponry
- Criminals
- Death
- Blood
- War
- Sadness
- Bullying
- Racism
- Drugs
- Robbery
- Adultery

All of these words describe violence and we need to try and stop violence. If this keeps happening, we could be in serious trouble. Violence is big in our world. Pay attention to when your watching the news or reading the newspaper that violence is everywhere. Violence affected my life because I can't go places at dark and the reason why is sometimes you can get killed, murder, anything! Another thing is I'm scared to stay home by myself because my family got robbed and if I stay home by myself again and someone tries to rob us I'll be the one thats going to be missing and I don't want that to happen. Violence affected other people in this world today because someone from another state came to Iraq and said something very bad to them Iraq got very mad. That person went back to where he came from and Iraq had a war with them. Violence can also be addressed by words. One day I was walking with my friend and he told me he got an A on the math test. So I gave him a "high five" and these to teenagers walked by us and called us gay (not as in happy). Violence can be addressed by bullying. Bullying is a big thing at school. Especially public schools. People bully because they want to feel tough or cool. For example, There is a little boy at my old school who has a lot of friends, but he has a bully following him everywhere, teasing him and calling him nasty names. But the only reason he was bullying him is because he wanted to be his friend and make other friends that the little boy had. A month later those two boys became the best of friends. All these types of violence are a sign that not all of them are bad. Some start of bad, but at the end it becomes a happy place. Another type of violence is racism. Now this was a really, really, really big thing back in 1963. This time period is when the childrens march was going on and Martin Luther King JR. spoke to the people

B613009.

about segregation and how the whites get all the big things and the blacks get the normal things. The last material that leads to violence is drugs. This is very important because drugs can lead to pollution when you're smoking. Alcohol makes your head not think correctly and it can mess up your ability to do work if you keep drinking. This leads to people not thinking right and just doing whatever they want to do like shooting guns and they kill someone. Lastly, the final type of violence is adultery. Adultery is the most frequently and severely condemned sins in the bible. Adultery is a very disloyal thing. It is probably one of the most worst things to do to another person. In my opinion adultery is the first unfaithful thing to do. Adultery should not be committed in the U.S.A. All these types of violence mess up our world and its community. We need to fight back all these types of violence and make our world a better, happier place. This is how violence affected my life and other people's lives.
