Violence

How violence has effected my life is when my older brother almost died. I was scared because i could have lost my brother and i look up to my older brother and its not safe because people are looking for him and it makes me scared. They do dumb things which is a bad influence and will make younger kids do the same thing. I always worrie about my brothers and sisters because some of them do drugs and my brother carries a gun. And i really care for all of them and i don't want my brother to die at all. We can all do something about youth violence and stop it. We can stop it by working to gether and getting different communitys and we will be able to stop youth violence that way no body has to hide in fear any more.
