He was shot in the leg, 2 hours later the police arrested all of the men that were involved in the shootout. 5 minutes later my cousin's father called my mother and told her he was taken to the hospital surgery was needed it took 3 weeks to get the bullet out of his leg. 2 days later he was released from the hospital he went home and everything went fine later. on the lookout for more people and patrol  
the streets longer and send more units  
more often
