Drugs, alcohol, gangs, peer pressure, poor upbringing, bad neighborhood and even television are just the causes of youth violence these days. Youth violence is bad.

Violence affects people in many different ways. It can be physical, emotional, or psychological. It can also be a combination of these things. Violence is a crime and it is illegal. It is also a violation of human rights. Violence is a serious problem and it needs to be stopped.

There are many reasons why people use violence. Some people are angry or jealous. Some people are afraid. Some people are just plain evil. Violence is a complex issue and it is not always easy to understand. However, there are some things that we can do to prevent violence. We can educate people about violence and its effects. Physical violence is the most common form of violence. It involves the use of force to harm or injure someone. Physical violence can range from a simple slap to a severe beating. Emotional violence is also a common form of violence. It involves the use of words or actions to make someone feel bad or insecure. Emotional violence can be just as harmful as physical violence. Psychological violence is another form of violence. It involves the use of words or actions to damage someone's mental health. Psychological violence can be very difficult to recognize and it can have long-lasting effects. Violence is a serious problem and it needs to be stopped. We can do this by educating people, teaching them how to resolve conflicts peacefully, and making laws that punish people who use violence.

Youth think it's cool to copy each other and other people. Violence can affect anyone's life. Violence takes people's children, parents, friends and family from our lives every day. We can speak up for ourselves and others. We can just be ourselves instead of copying someone else. Don't give into peer pressure because you'll be a follower instead of a leader. Being around positive role models will help in many ways.

I think it's cool to see
 people who are not afraid
 to take risks and try
 things that are different
 from what we are used to.
 It's important to have
 people who are willing to
 step out of their comfort
 zones and try new things.
