What causes violence is people raping little kids, kidnapping, selling drugs, stabbing, shooting, because of these violence things, violence makes people really scared.

Violence effects me because, I don't know if I'm going to get home safe and sometimes people don't know if it's even safe to go outside to there car and get something because the people that are kidnapping and murdering. It's really bad because the people that kidnap and murder are going to keep doing it and more people are going to die.

Sometimes I'm scared of violence because they like to kidnap and murder people, and I don't want that to happen to me so, I be aware of my surroundings. I don't want it to happen to me because I have to walk sometimes to Dudley Station or Ruggles sation, and go on the bus alone. Also, walk home alone, I always look back to see who's behind me because I don't want to get hurt.

Around many nieghbrod people like to shoot, stab, sell drugs, fight, and use weapons. These are causes of youth violence. For example, One day in the summer everyone on the street was outside and people was having cookouts. Then the cookouts was still going until night

And all the kids was playing outside. So my mom was talking to her friends, and I see these men walking back and forth and one of them looked at me like they wanted to do something to me and I got scared. So I told all the kids to tell thier moms and we told are moms. Then my mom said stay close to me and I said ok. So, I went back to play then we all heard one gun shot and there's was one person that jumped over the bullet and went under a car. After, the police came and we all had to say what we saw and heard.

What I can do about youth violence is to Big aware of everthing or anything going around you. Also, Make sure you say something to an adlut when you feel threaitend and when they look at you a strange way, like I did when that man looked at me when he was walking by me and my friends. Another thing we can do is calling the police and even if you don't want to snitch somethings you have to say something to protect your life and people's lifes.
