Violence

How has violence affected my life? There is less reasons how it has but the big reason that i'm going to tell. This is the story is how and why my father left where I live. It was two days before my cousin birthday and me my cousin and my mother went to get our nails done as a present for my cousins. When we were done getting our nails done my mother got a phone call from sister. Saying that when my father came home he asked my sister for my mom all she said was that she didn't know, when all of a sudden. My father threw my sister to the wall and hit her really hard. Then after that my sister and father left the house. My sister went to my other cousins house and my father went away to a friends house. By the time we got home my father and mother went to their room to talk while me in my cousin was in my living room to play on the laptop. Then 20 min later all I see is my father leaving my house saying good bye.

To me the causes of youth violence is kids getting mistreated in their home so they take their anger out on other people or kids. Another cause of youth violence to me is kids trying to fit in with other kids just to say that they have friends. Also I think youth violence is kids getting into bad things to help support their family's.

To me how I think we could stop youth violence is having more social workers to check up in peoples homes. What I also think we should do is have more guidance counselor or more teen support group so that teens can find themselves in good and not bad.
