Violence

G8 15098

Violence to me is when two people have an issue and it causes more trouble and harm to other people, and causes more people to get upset. Which is exactly what I experienced.

On February 24, 2014 it was a Friday on that day and me and my family always go to church we got ready to go to church and then we got into the car and we went to church but as soon as we went I felt that this was going to be a strange day at church. We went into the church and everything seemed normal later on there was an old divorced couple they got divorced because the guy was abusive to the girl so she left him but he was very angry at her for divorcing him and because she put a restraining order on him without notice he had always tried to find her but he could never catch her around but that day he did he started hitting her cursing at her and was just being very rude, mean, and disrespectful to her while she was being mistreated. Some dude passed by in a car and saw how the dude was hitting her he got out the car and told the man to stop he told him to get out of his business and he hit him then of course the guy who got out the car to help the girl hit him back and it turned into a very serious fight then they both busted into the church door BOOM! everyone was in shock the pastor of the church ran to the both of them trying to stop the fight and got hit and then he became upset more and more people tried to stop the fight

2012

Violence

Violence to me is when the people have a
power that is used to cause harm to
others. It is not just physical violence
but also emotional and psychological
abuse. I believe that violence is
often a result of fear and a lack of
communication. When people are
scared, they often resort to violence
as a way to express their anger or
frustration. I think that violence
can be prevented by promoting
open communication and understanding
between people. It is important to
listen to each other and to try to
resolve conflicts peacefully. I believe
that violence is a cycle and that
it can be broken by changing the
way we think and act. We need to
focus on building a more just and
peaceful society. I think that
violence is a sad and unnecessary
part of our lives. We should do
everything we can to reduce violence
and create a world where everyone
can live in peace and harmony.

and then it turned into a massive brawl while I was trying to get out the way my toe was broken because everyone was fighting and there was no space to move away there were alot of kids and they started crying eventually every one stopped and ~~sett~~. Since then that church was ended and was shut down and not alot of people kept in contact after that. So violence had affected my life in many ways because know I know that violence can happen anywhere over church and I lost friends because no one kept in contact.
