

Using data to ignite and sustain employment systems change

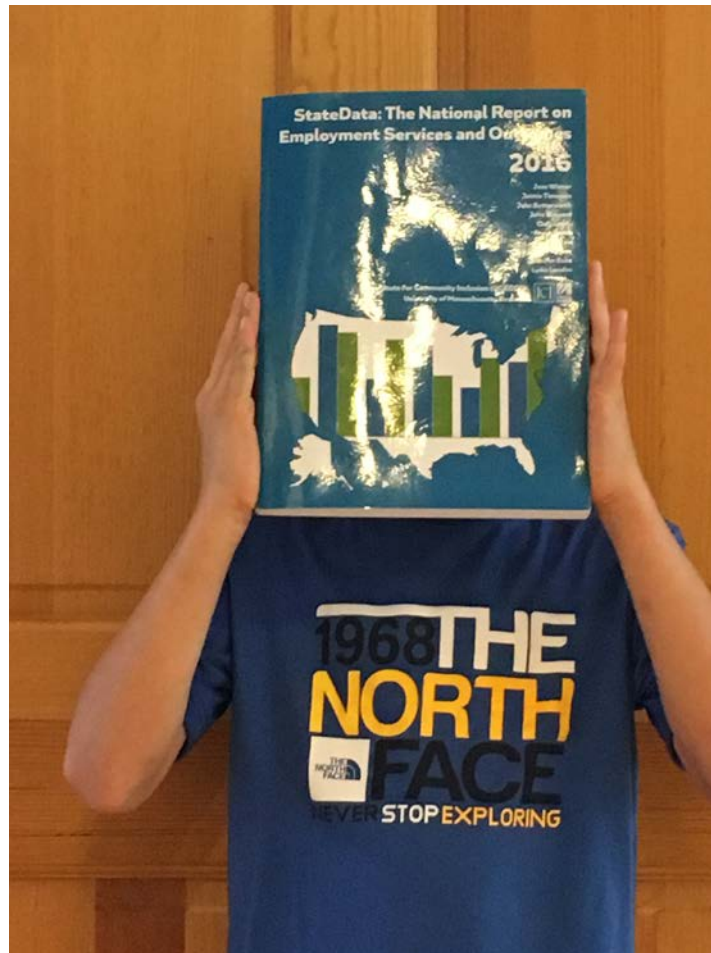

StateData.info

ThinkWork!

I Love Data!

Work and poverty: What's the relationship?

Individuals With a Cognitive Disability Are More Likely to Be Unemployed and Live in Poverty

WORK

POVERTY

American Community Survey, 2016

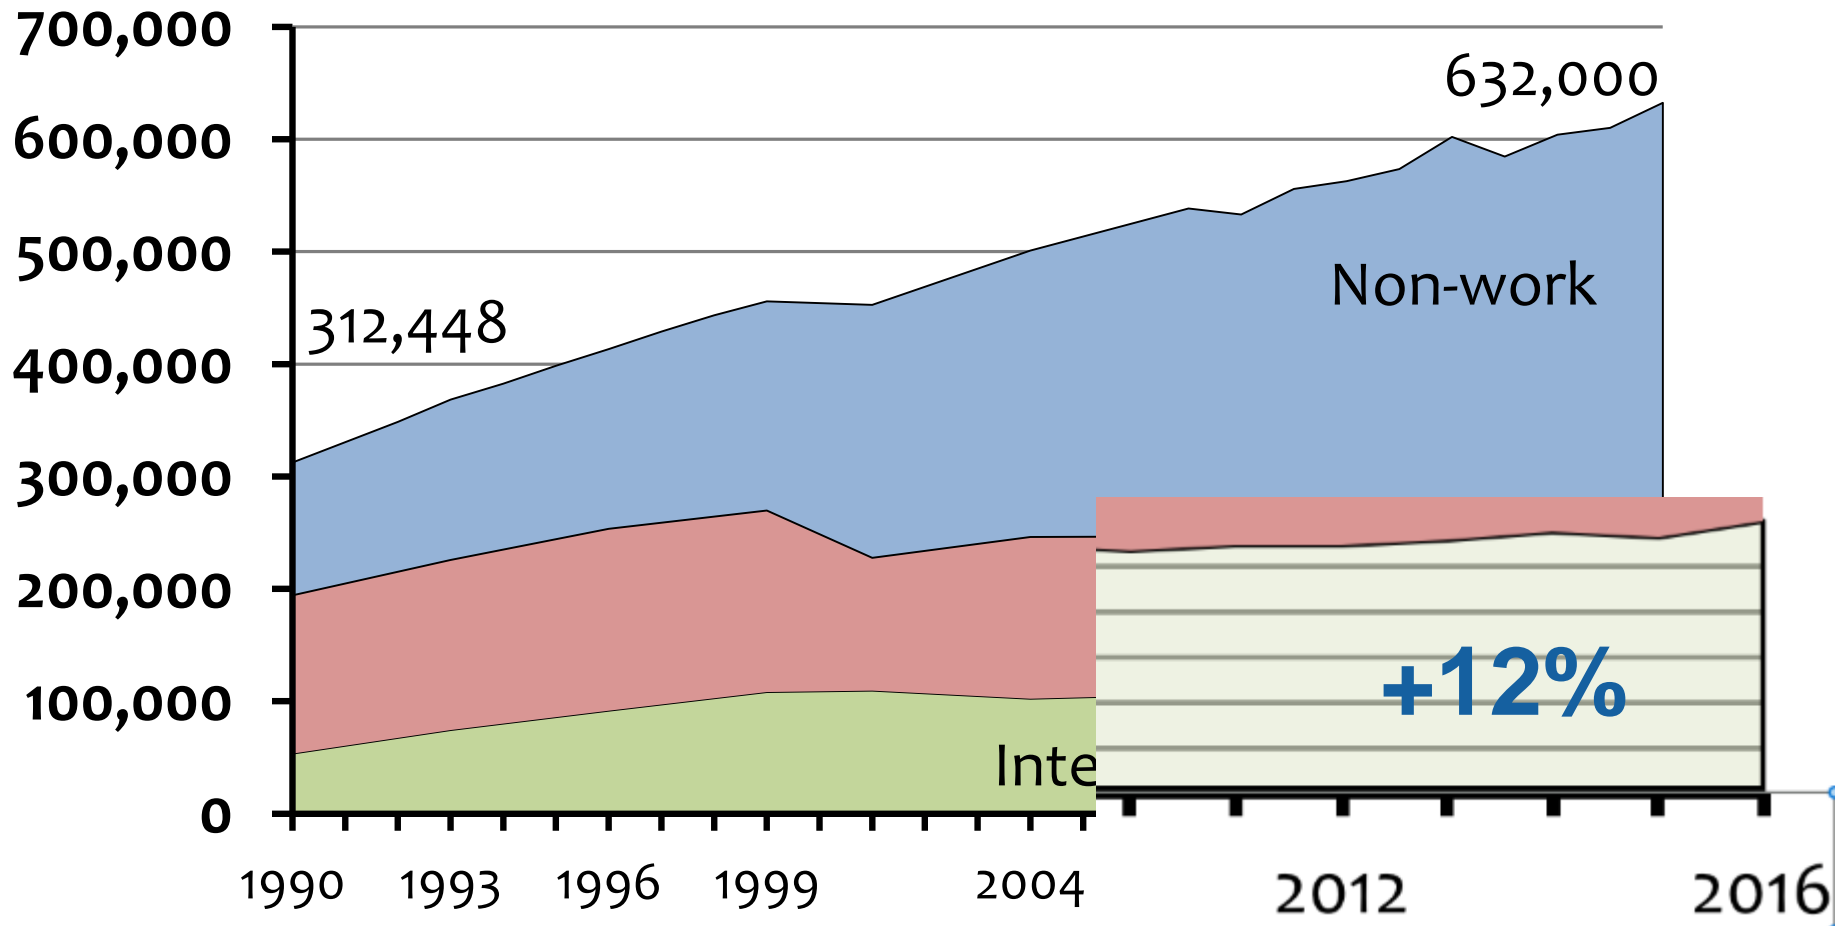

Who lives below the poverty threshold?

SSI* Beneficiaries with Intellectual Disabilities are Unlikely to Work

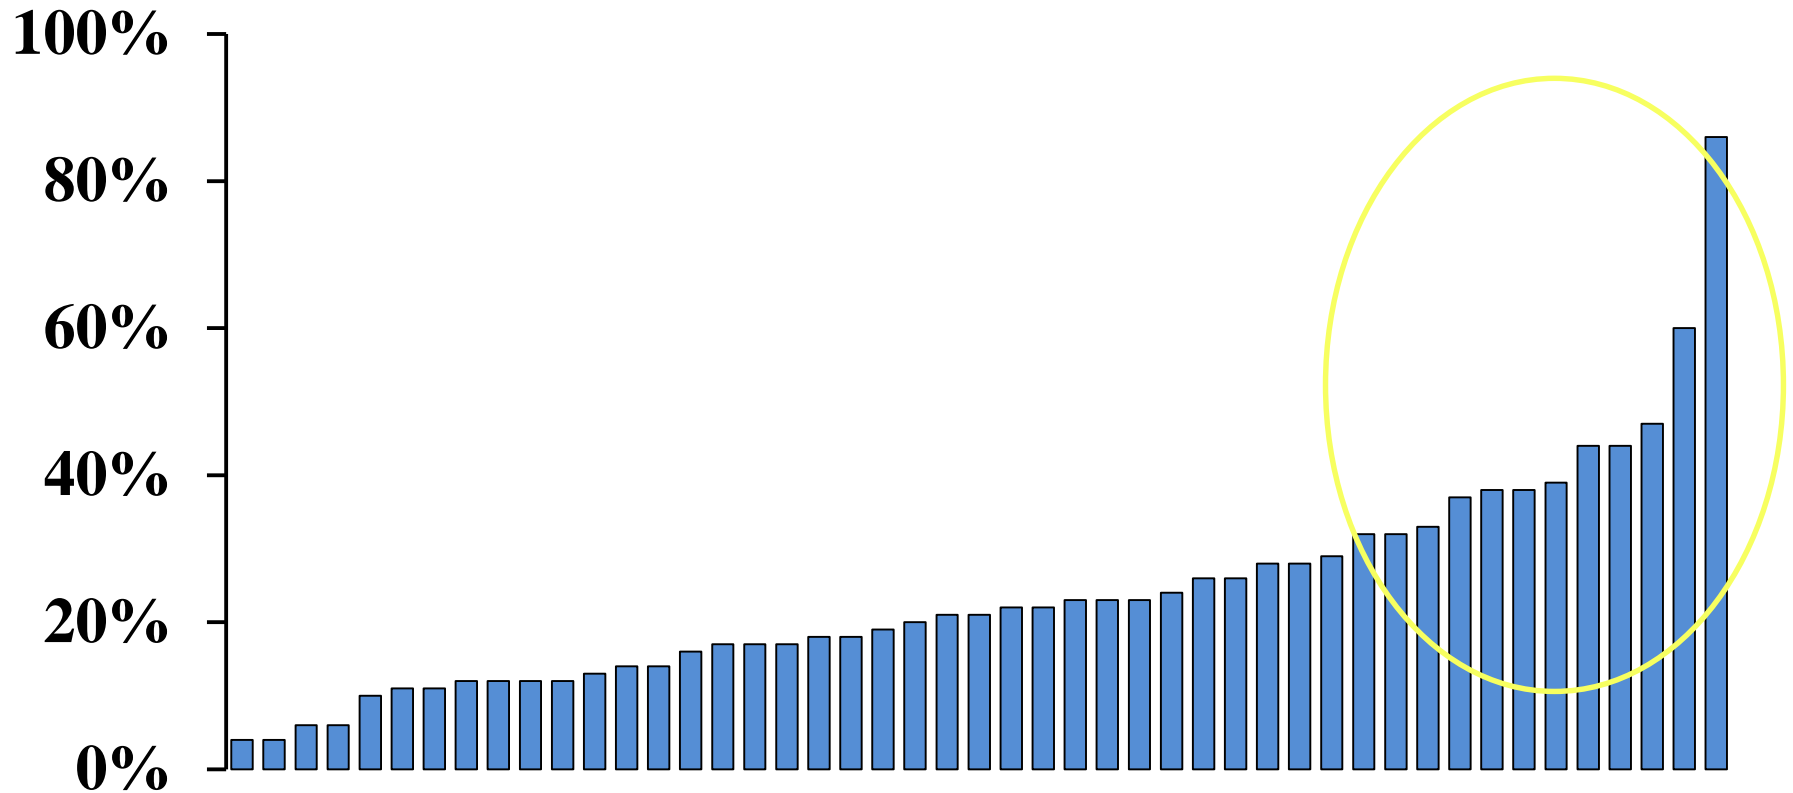

Social Security Administration, 2016

But we are making progress!

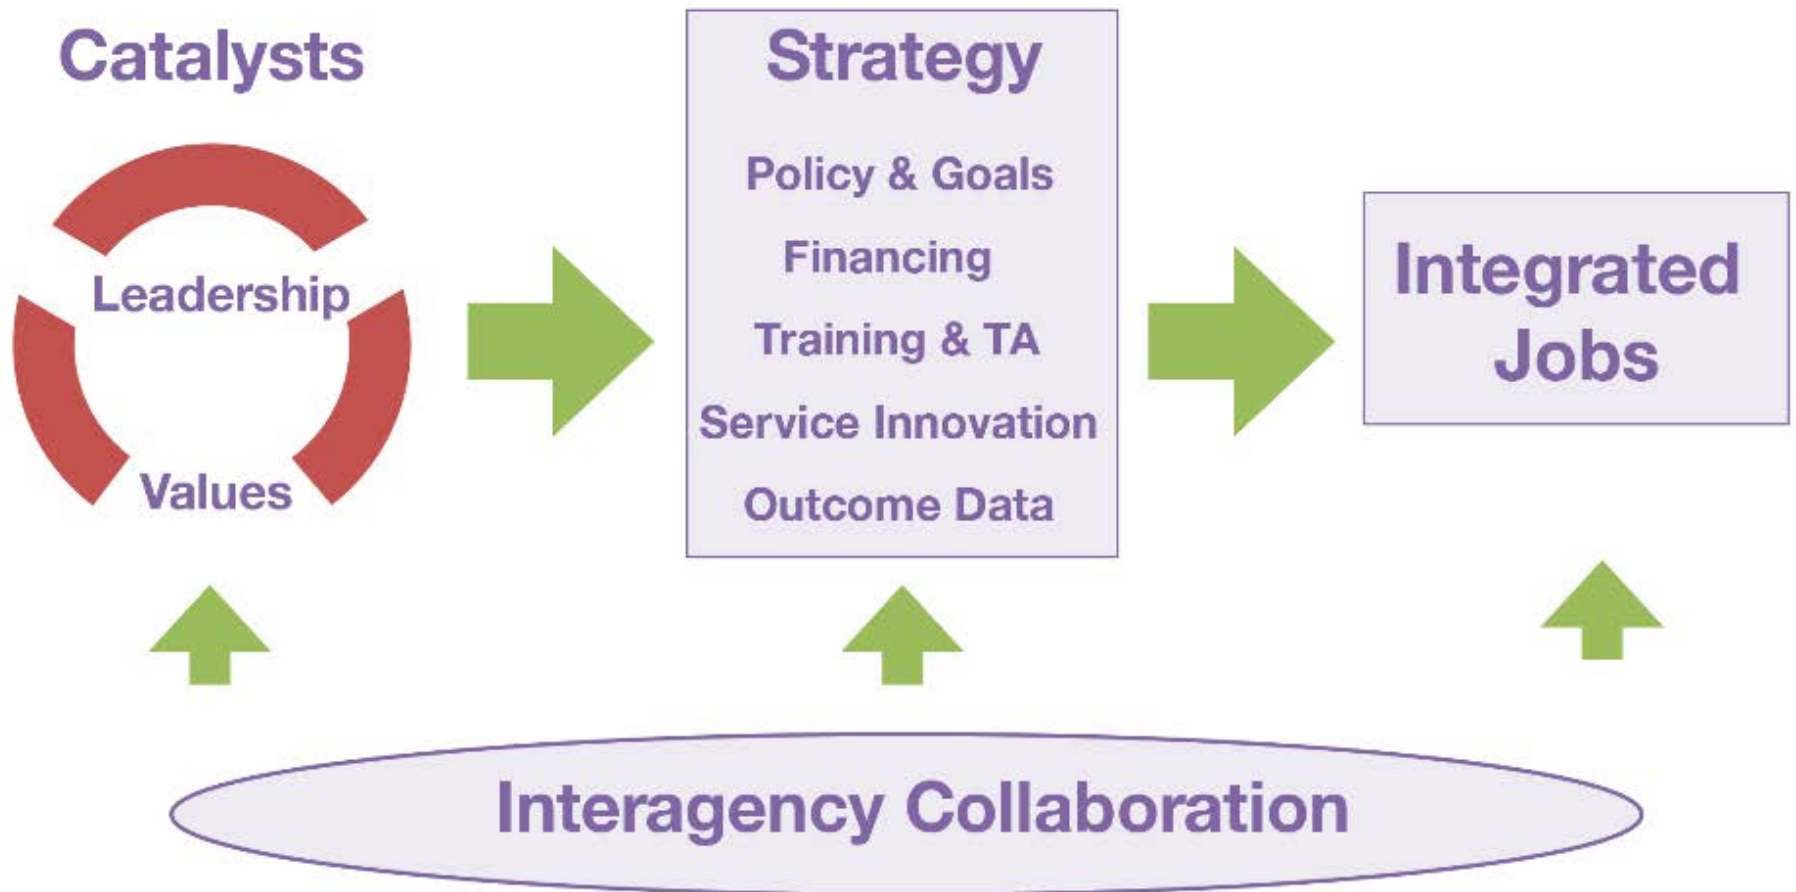

Participation in integrated employment services varies widely

Context matters

Higher-Performing States Model

Why does this data matter?
