GENERAL NOTICES

Students desiring to change their major should come to the Advising Office (4th Floor, Sawyer Bldg.) immediately to do so.

All students should note carefully the following statement from the UMB catalogue on the Natural Science and/or Math core requirements; "Four semesters of Natural Sciences and/or Math, not more nor less than two in a department." For example, a student cannot take one semester of Physics and one semester of Chemistry and use this for one year of his science requirement.

He must have two semesters within a department to count toward fulfillment of the requirement. If there are further questions, please consult with the Advising Office.

All seniors who have applied to Law Schools are requested to see Mr. Dittmar, pre-law advisor, within the next week. Rm. 2-0438.

To avoid mistakes in registration for next fall, all juniors with questions about graduation requirements should see Mr. Dittmar in the Advising Office (fourth floor, Sawyer Bldg.). In particular, any junior who has a question about the appropriateness of past programs should have the University regulations clarified. Of special concern is the failure of some students to take two semesters of each of two different subjects in the Math and Natural Sciences core requirements. Any student who has fulfilled part of the core requirements with a single science or math course should see Mr. Dittmar immediately. It is essential that students with questions secure advice before pre-registration for their senior year.
