Violence is a very bad thing to do you should never do violence ever in your life. The most violence that ever happened is mostly youth violence. Youth violence mostly occurs because of gang related. That is how most violence occurs because people in gangs shoot people if they don't get their drugs. The definition of violence is that it means physical force or power. Most violence kills people even sometimes people kill the wrong people. Violence affects my life by how we play, and how we live in our daily lives. I remember on time on my old street there was a shooting I was very terrified I couldn't eat for days that's how terrified I was. It was across the street from my house. I heard 5 or 6 bullets I was very scared. That is how I am confronted by violence. Some of the causes of youth violence in my community are weapons. I can probably try to make a stand with my friends and my family to stop violence and to stay on your education and to stay in school and never do drugs no matter what. Most youth violence is caused by weapons, depression, peers, lack of guidance and attention. Here are some examples of violence hitting, beating, punching and many more. Violence has many causes including frustration and exposure to violent media. When people bully other people they commit suicide which turns into violence which then they kill themselves. Some bullying occurs online and at school or after school. Violence can be divided into three main categories. Youth violence is referred to violence occurring to the youth. Violence cannot be attributed to a single factor. People in gangs can get arrested if they get caught selling drugs to other people. That is why when I go to church I make sure that I have to pray for those people who do violence towards themselves and to other people. Also, I pray for those people who do violence to kill people. Violence happens all around the world.

People take out their anger and sometimes they don't realize they are. So they do violence towards those people who are innocent. In my honest opinion, I am scared of people who are in gangs especially the teenage gangs. They really scare me if I ever see them or even pass by them. Whenever I go to this place it is called Dudley I don't like going there because the people there sell drugs and they get drunk and they shoot people and kill them. Therefore, people there they are really creepy they are so creepy that I don't even want to go there with my own mother, father, sister, and family. War is also considered violence because even though people they are fighting for our country and for our rights they still kill people so that us people can live. Bullying is another type of violence because people bully other people to make them feel bad and to make them think they are not worth anything but they are some one . In conclusion, that is my essay about violence.
