Poverty in Massachusetts by Age

**US and Massachusetts**

Massachusetts has lower poverty rates compared to the US average. But, like the US, child poverty rates far exceed those of working age adults (ages 18-64) and those 65 and older.

**Massachusetts Distribution of Total Population by Age**

- Under 18 years: 13.0%
- 18 to 64 years: 64.2%
- 65 years and over: 22.7%

Children are 22.7% of the total population, but are almost 30% of the poor. Conversely, those 65 and older are 64.2% of the population but 59.1% of all poor people in the Commonwealth.

**Massachusetts Distribution of Total Poor Population by Age**

- Under 18 years: 12.1%
- 18 to 64 years: 28.8%
- 65 years and over: 59.1%

**Poverty rates by age in Massachusetts’ 10 largest cities**

Child poverty rates differ considerably across Massachusetts’ ten largest cities, ranging from 11.1% in Quincy to 41.0% in Springfield. Boston has the highest poverty rates for those who are 65 and older. Even though most over 65 and older are not employed, this group has lower poverty rates than “working-age” adults in six of the cities. In Boston, Lowell, Lynn, and Quincy, elder poverty rates are higher than those 18 to 64 years old.

**NOTE:** All data are 5-year estimates, 2005-2009.
