Poverty in Massachusetts by Education Status Population 25 Years and Older

US and Massachusetts

Massachusetts has lower poverty rates compared to the US average. But, like the US, the poverty rate for the people with less than high school graduate far exceed those of higher education level.

Massachusetts Distribution of Total Population by Education Status

- Less than high school graduate
- High school graduate (includes equivalency)
- Some college, associate's degree
- Bachelor's degree or higher

Massachusetts Distribution of Total Poor by Education Status

- Less than high school graduate
- High school graduate (includes equivalency)
- Some college, associate's degree
- Bachelor's degree or higher

People with less than high school graduate are 11.3% of the total population 25 years and older, but are 30.1% of the poor. Conversely, those with a bachelor's degree or higher education are 38.2% of those 25 years and older.
