- ❖ Delphi panel to identify critical elements and case studies to show those elements on the ground

- ❖ Represented a range of groups (provider staff and management, self-advocates, families)
- ❖ Had knowledge of, or had participated in, a transformation process

Purpose of the Case Studies

- ❖ Provide examples of what Delphi elements look like on the ground
- ❖ Provide depth as to how the elements can be implemented
- ❖ Provide strategies to populate our Toolkit
- ❖ Provide us with a state context
