Violence is every where, is in you, in me and any living organism. The real question is not how to stop violence because that's a stupid question violence is a human instinct created by a simply emotion that sadly sometimes we can't be control. Violence comes in different phases and all those phases just bring negative emotions and sometimes physical damage. I am going to tell you something you probably already know and is that we live in a world where our surrounding are full of violence Social Network, TV, and the corner of my street. Violence makes people make stupid decisions base on fear like bring gay but not coming out of the closet because your scare of getting bully, Or a 30 year guy that lives

B814004

in their parents basement playing games, why?... because he's scare of facing live by their self or they are just lazy the point is not how hard you hit if not how hard u can get hit because to be real we live in a world that is mean and is going to drop you multiple time but you need to get up and become the men or the woman the and the woman that stand to what the believe because all that is out there is violence dreams and opportunities that we need to work for that fear create by violence has made us judge people by theirs looks when we need to realize we are all created equally and suppose to be treaded equally.

B814004

In conclusion violence kills you emotionally

and physically.
