Violence Essay
February 2014

Do you love to go to school? If you are the type of person that says no, is it because you are being bullied? Have you been called nasty nicknames or have you faced violence in any way? Well, violence should never be in anyone's life, it could cause death, anxiety or a person to bring a weapon to school. Here I will teach you how to face it and give you ways to make it stop.

Bullies look for power, attention, or someone to pick on to get their anger out. For example, someone would bully someone because they have problems at home they can't face, so they take out their anger on someone much more weaker. Also, violence can be planted in a child or adult's mind by the video games they play, television shows they watch, and music they listen to.

Violence affects our daily lives. In a story on NBCnews.com, there were "28 school shootings in 2013." Violence is harming the world and we need to make it stop, so here are some helpful suggestions. If you are being bullied, you can tell an adult or have a friend escort you away from the situation. Also, don't roam the streets and go into gangs because they don't protect you, they just get you into trouble. Lastly, focus on school because if you do, one day you will get somewhere in life and the people who bullied you might not get accepted into college, so they get a low paying job or most likely end up in jail.

In conclusion violence is bad and it gets you nowhere. So, watch what you do and make a positive difference.
