Violence

I don't understand why people have violence in their life because it's not safe for the people around you and not safe for you too. Violence has affected my life by causing me to have a scar on my left hand. When I was young I had to stop a crazy kid from killing two girls they were twins and he had a knife cheating the twins around the bus. I got up and stop him, he end up cutting me, then we started fighting for the knife I end up getting the knife. I throw the knife out the window the girls were scared of dying and they thanked me for saving their life. Then the bus driver called the police and the bus driver called the police again. The bus driver wrapped my arm up. The monitor hold the boy down till we got to the school. I told the police what happen then they took the boy away. The principal called me over and my mother was on the phone. She ask me "are you ok". I said "no my hand hurt's". Then she said "I am on my way bye". Then I wait for a little bit and then she came and pick me up and I got patch up in hospital. The causes of youth violence was just because that person is crazy.
