~~Violence~~ Violence in my life

Violence has effected me in my life alot. It has because my family doesnt stay in one area for a long time. This happens because usually there is violence or drama around where I live. If my dad has problems he deals with them himself. But if its a girl and she wants to fight, he tries to make my mom involved in it. The problems start if my dad cant see his kids. My mom gets tired of doing his handy work, so she decides to move. But it might follow us. So we keep moving until the problem stops. Some of the cause of youth violence are home-related and school-related. It could be caused in home because some parents can abuse and neglect their children. All the abuse and neglect can build up inside. They cant take it out on their parents, so they do it in school. They go to school and bully, fight. If the abuse gets any worse, they might think about suicide. It can happen in school because kids could try to make a name for themselves. They can join a gang and do harsh things to get into the group. They can kill or even get beat up just to join one group. The way we can stop youth violence is to make kids or teens see

the error of their ways. They can show
them what the effects of what they did
affected ~~his~~ ^{their} family.
