Violence

Violence can harm you and hurt you really bad, and even kill you. Violence affected my life mentally and physically. It happened when my cousin mom died. Someone killed her and her boyfriend. My cousin was in the house, but he didn't get injured. When I found out, it was early in the morning, and my cousin called my mom telling her to put it on the news. My family and I was really sad. My cousin wouldn't have a mother anymore. They didn't deserve this. I was surprised about what had happened, wondering why would anyone would want to do that.

Youth violence is happening more and more. Many things causes youth violence like drug related, fighting, and bullying. People don't understand how dangerous youth violence is. Youth violence is caused by dating, jealousy, Miss understood, gang related, fighting, and arguing. Those things can start violence. Violence can be started by stupid things, and little things. Even the small things can start violence. Being careless can start violence because sometimes being careless can hurt people, or get someone angry and want to hurt to.

What I can do about youth violence is that if anything is happening stop it before it gets further than what it is. If anyone doing anything to hurt someone mentally or physically, stop it because it can hurt someone really bad. If your a bystander tell someone, because if you was getting bullied or you was getting hurt you would want someone to help you.

I have been thinking about you a lot lately. I hope you are well and happy. I have been busy with work and school, but I always find time to think of my friends. I hope you are doing well in your studies and work. I have been thinking about you a lot lately. I hope you are well and happy. I have been busy with work and school, but I always find time to think of my friends. I hope you are doing well in your studies and work.
